## Frequently Asked Questions (FAQ)

Posted by Sciurus - 2007/06/11 14:30

---

Here are some common questions about the SquirrelChess website and the answers. Feel free to post your questions in the help forum (yes, that means here, free registration required for posting) or contact me directly if you have a question that is not (yet) answered here!

Do I have to be a good chess player to play correspondence chess at SquirrelChess.com?

Every chess player is welcome to play at this site, just register (it is free!) and start a game. Beginners are particularly welcome!

I started a new chess blog/website. Can we exchange links?

I am always happy to browse through new websites and will generally link to sites I like. A backlink to SquirrelChess.com is appreciated but optional.

I have my own forum using Fireboard. How can I get chess games displayed in the posts?

There is a special forum thread with instructions on modifying the Fireboard software to show interactive chess boards in posts.
